

Wednesday Lunchbox Session
Complexity Sucks! (your profits)
October 5th 12.30-1.30pm
G Block, Gardens Point

Unnecessary complexity kills profits and makes a business fragile. The Global Financial Crisis of 2008 showed that companies who fell down were too complex. It's vital to know how to capitalize on good complexity and remove unnecessary complexity. Simplifying business delivers more profits, sustainability and staff morale, whether the economy is in good shape or not.

Dr Ian Dover will explain

- the drivers of complexity and**
- the five Principles of Business KISSing (Keeping it Simple).**

Who should attend: all students and others who want to be involved in entrepreneurship and innovation.

Innovation Showcase

Wednesday March 16

12.30pm-1.30pm

**Room 601, 6th level,
Q Block, Gardens Point**

- Find out how QUT Innovation Space can help you with your innovation.
- Showcasing student entrepreneurs who have 'been there, done that' with their own innovations.
- Learn how they did it and join up with other emerging innovators.
- In just one hour we will hear briefly from two entrepreneurs before Questions and Answers.

Who should attend:

all students and others who want to be involved in entrepreneurship and innovation either with your own idea or someone else's!

RSVP via Facebook or
